How Can Your Life Change?
The purpose of this workbook is to help you apply the biblical truths taught in “I Will Give You Rest,” for the rest of your life.

For most of us in our culture, studying the content of the book is more comfortable. Applying the truths is much more uncomfortable; but without it, your life won’t change.

Because Content and Application are such different parts of the process, we are including questions to help you with both steps.

Please be sure to read these instructions before you begin to answer the Workbook questions.

There are two steps in your healing:

1. First, you need to learn about the provision God has made for you to enter His rest (read and study “I Will Give You Rest”).
2. Then, you need to apply those provisions to your own life (pray about your own bitter roots, and thus be transformed into the image of Jesus).

The first step gives you a roadmap to where you are going.

The second step is actually taking the trip. The second step is more uncomfortable, is more work, is more time consuming, and therefore far more difficult. But your life will only change if you actually apply the blood of Jesus to the specific areas of need in your life.

So I would encourage you to do both steps if you want to experience the rest Jesus provided.

Accordingly, this Workbook has two sections for each book chapter:

1. Content Questions, and
2. Application questions.

The Content Questions are intended to help you learn about God’s ways. After reading a chapter, close the book and try to answer the Content Questions for that chapter. Then open the book and go back and find the answers you missed.
The **Application Questions** are far more difficult, because they require you to be totally honest with yourself and the Lord, and they require you to enter into and explore the painful areas of your life. That is not fun. However, the goal is to then have the pain removed.

Do not try to answer the **Application Questions** until after you feel confident of your answers to the **Content Questions**.

**Life History Form**

I have available a **Life History Form**. I would also recommend that you complete the **Life History Form** early in this process. The experience of reflecting on your life as you answer these questions will help you to understand more clearly your own roots and areas of struggle. This insight will make answering the **Application Questions** most productive for your healing. To get a copy of the **Life History Form**, go to [www.divinelydesigned.com](http://www.divinelydesigned.com). At the top of the home page, click on “Free Workbook.” The **Life History** will be there.

**Answering Application Questions**

When processing the **Application Questions**, **get a pad of paper** and pencil and get quiet and comfortable. We did not provide spaces in the Workbook for your answers, because we did not want to limit the space you have available for your answers. Save your answers to the **Application Questions**, as later chapters will sometimes refer you back to prior answers.

Eliminate distractions, because you need to be focused inside yourself. Ask the Lord to help you. He knows the problems clearly, and wants to help you to see for yourself.

Then simply write out your answers as they come to you. Do not worry about grammar of proper organization. Do not judge what you are writing. Just let the answers flow.
Chapter Sequence

If you are doing this process alone, or with just one other person, I would suggest that you read the chapters in the order they appear in the book.

If you are doing this process in a small group, you may want to use a different sequence. In a group you may want to more quickly bring the group members to a place where they can begin to pray for each other. In this case, after Chapter 5 you might insert Chapter 11 and the assignment to listen to every negative emotion. Then depending on how many sessions you plan to do, you might shuffle some of the later chapters around, or combine them.

Keep in mind that if you change the chapter sequence from that of the book, occasionally a term or concept may come up that was defined in a chapter you skipped. I do not think you will find that to be disruptive.

Now you are about to enter into the most exciting and rewarding journey of your life!
